# WHAT???

What do you know about summer-shredding??? NOTHING?!?!?!  
We know a lot about it...

We know a place where you can find a big fat glacier 3200 m above the sea, a place where you can find snow all through the year.

We know many smooth guys who built up an incredible park for you on our glacier. We know how to do biiig parties with BBQ, beer and "Tirolerpeif".

We know a place where there are summer temperatures but still winter snow conditions, perfect to shred for six weeks in the hot season...

Have you heard about the Summer Camp in Val Senales? No, you didn't?!  
Then push the button and continue reading!!!

# Shaper Opinions

**Simon Gruber "Lüpl"**

**Hello Simon, you became 'rider of the year' in Italy. In the winter season you shaped at Seiser Alm, how can you handle it to shape in Val Senales besides your whole other stuff?**

Hey. It's quiet stressful, but in the summer in Val Senales we work for two weeks intensively under high pressure to build the whole park. Afterwards we are six shapers to maintain the park, so we have still enough time to ride. I think it's sick to hit self-shaped obstacles.

**You come to the Gentlemen's Park to shape it for the 4th year, since two years as headshaper. What motivates you to return to Val Senales every summer?**

The job and the park offer to me perfect training conditions. I work together with the F-tech park construction company as a coordinator. So I'm able to affect the park-setup a little bit, what I really like. We are anxious to build a park for every level, from easy over medium to pro lines.

### **Lorenz Breitenberger aka "Lööönz"**

**You build, together with the F-tech company the BIG park @ Kronplatz/Plan de corones and maintained it the whole winterseason, why did you decide to shape the Gentlemenriders Park in summer?**

Well, first Schnalstal/Val Senales is my home resort and i haven't got the time in winter to shred there with my homies who have spent most of the winter there. They will be there in summer too. second i love snowboarding and this gives me the possibility to ride in summer too. Last but not least the park is the burner!!!!

### **Christian Vieider aka "Terlan"**

**You're the latest entry of the shaper crew. What are your motives to shape the park in the summer already for the second season?**

I hurt my knee badly last season. Now i begun to ride again a couple of month ago, but the knee isn't totally cured yet. I have to be on the mountain and on the snow so it's the perfect solution for me. I also do film stuff for the GMR video production up on the glacier. On the park I can rock the easy line to do some jibbing to satisfy my thirst for snowboarding.

## Tommaso Verza "Verza"

**You were headshaper at Obereggen the winter season, why do you sacrifice your time in summer to shape at Gentlemenspark Schnalstal/Val Senales**

Because a very innovative park was planned and constructed there. It's great to plan and realize insane obstacles with the F-tech and GentlemenRiders crew. Furthermore it pushes me to shred with good riders. I like to do party, and that's what the gentlemenriders do. They turn on their BBQ and celebrate a couple of times a week. The evenings can be spent in the pub. Probably this influenced my decision haha.

## Johannes Gögele "Hons"

**You returned from a World journey these days, why do you go directly back to work on the mountain?**

After my time as a headshaper in Schnalstal/ Val Senales a few seasons ago, I went to the Philippines to surf and explore the world. I came back to Schnalstal/ Val Senales to meet the people I haven't seen for a long time and finally to shred the Gentlemen's park again.

I like the title of the last week of the summer season which is „Gentlemenriders glaciersurfing week“.

**Daniel Neulichedl "Plazy"**

**Hey Plazy, this is already going to be the fourth summer season in Schnalstal/ Val Senales in which you are going to shape the Gentlemenrider's Park. Tell us about your reasons to return onto the glacier every year!**

In Schnalstal/ Val Senales the atmosphere is very nice and snowboarding really is the head of everything. You can meet easy going people and some- times you get to know a nice girl.

**What about this picture in the background?**

This shows the fakieshop.com shooting which happened in July 2008 – during the last week of the Gentlemenriders summer. You can see that on the emerging ice in the background. The kickers still worked very good, the snow was fine till the end of the season.

**This winter there was a lot of heavy snowfall. Is it true that, as a result, you will be able to build a new line this summer?**

Ya we're going to apply a 12 m handrail and a 16 m down-straightdown doublekinked rail.

**Final words?! Ride on.**

## ABOUT

# GENTLEMEN RIDERS

The Snowboardclub "Gentlemen Riders" was founded in 2005 with the aim to unite and push the snowboard scene in South Tyrol/North Italy. Today, 4 years later, we proudly can show what we've done the last years.

Nowadays we are planning and working with interested ski resorts on snowparc projects. This resulted in numerous smaller and bigger parks throughout the country.

Our showcase is the Gentlemens Park in Val Senales. It is a small year-round ski resort, which developed in the scene to the "secret spot", which attract many international, -well known Snowboarders.
